Storefront for Community Design Celebrates 10-Year Anniversary

Richmond, VA– On February 14, 2021, Storefront for Community Design celebrates its ten-year anniversary. Since the beginning, Storefront set out to make design accessible to all “for the love of our city.” Through partnerships and community collaborations, Storefront continues to discover new ways of seeking the physical and social transformation of Richmond through design and community voice.

“After an incredible ten years we remain humble, yet excited for the possibilities that lie ahead for our organization, partners, and neighbors. With the hiring of a New Executive Director and Center Director, this is an ideal moment to reflect upon the progress we’ve made to assist in creating more equitable communities and establish a vision moving forward; an opportunity to discover how we can better align and advocate to the current needs of our communities and future development trends around the City of Richmond,” said Shawn Balon, Executive Director.
